Summary

I'm a passionate designer who creates user-centered UI designs and an aspiring frontend web developer who brings those designs to life. I have experience working with **HTML, CSS, JavaScript, PHP, Python,** and **Java**, and I'm familiar with frameworks such as **Ionic, Tailwind CSS,** and **Bootstrap**. I'm currently seeking my first full-time role in UI/UX design.

Experience

Graphic Design Intern   **01/25 to 05/25**
Wireless Access for Health

- Maintained brand consistency across all design outputs, adhering to company style guides.
- Designed the event tarpaulin used during an awarding ceremony, following the company's branding guidelines.
- Created designs for the plaques used in a recent recognition event
- Edited instructional videos for the company's system's user manual to guide users through key features and functions.

Former Vice President of Multimedia   **04/21 to 04/22**
Programmers' Den (Tarlac State University)

- Created publication materials
